Page 2

Documentation of compliance with the Consent Decree and Addendum is available on a SharePoint drive located at <https://ecsl.valero.com>. The drive contains three primary folders. The first folder contains copies of the Valero Consent Decree and Premcor Addendum for your reference. The second and third folders are divided between the Valero and Premcor refineries and contain a primary folder for each refinery. Each refinery folder in turn contains a "Compliance Table" and a "Permit Table" which reference the Consent Decree and Addendum requirements and include hyperlinks to the appropriate documentation or permit.

Valero and Premcor certify completion only for the refineries that they currently own. For ease of reference, a list indicating the ownership status of each refinery in the Consent Decree and Addendum is enclosed and is also available on the SharePoint drive. To obtain access to the drive, please contact Steve Thompson in EPA Region 6 by e-mail at: thompson.steve@epa.gov.

I look forward to working with you to complete the termination of the Consent Decree and Addendum. Please contact me if you have any questions or concerns regarding this certification of completion or the compliance documentation.
